

HEALTHCARE COST

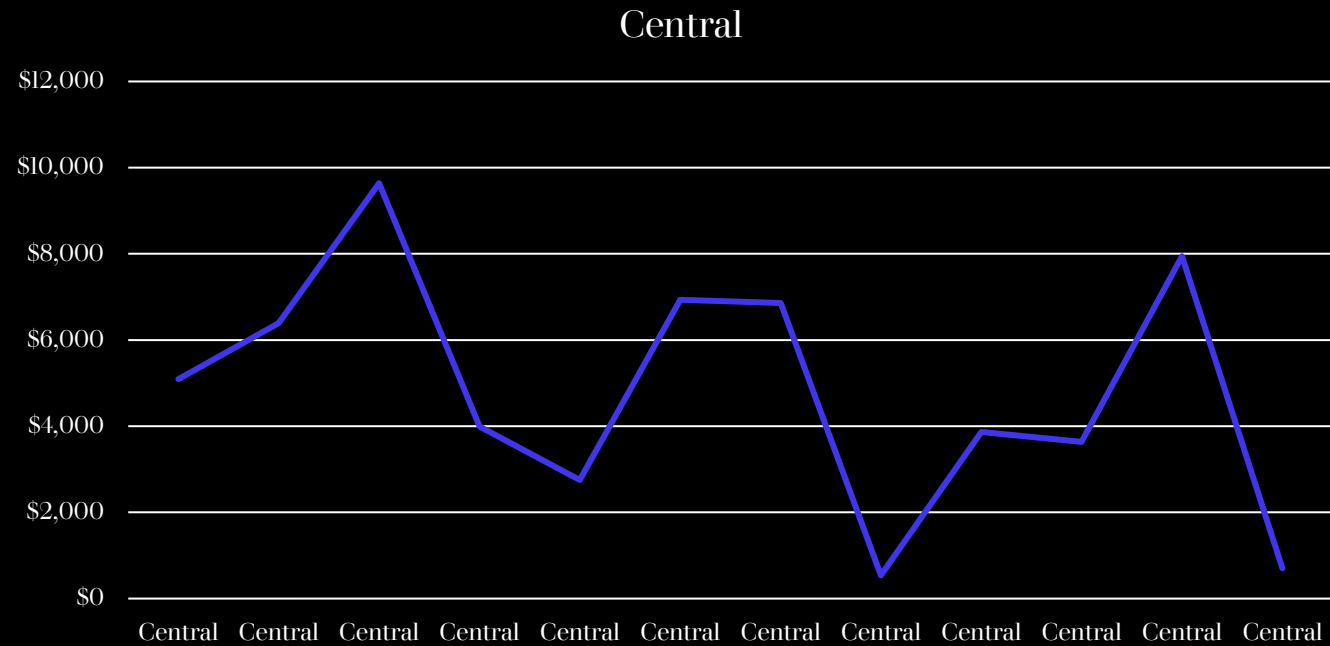

Nasheedah Singleton

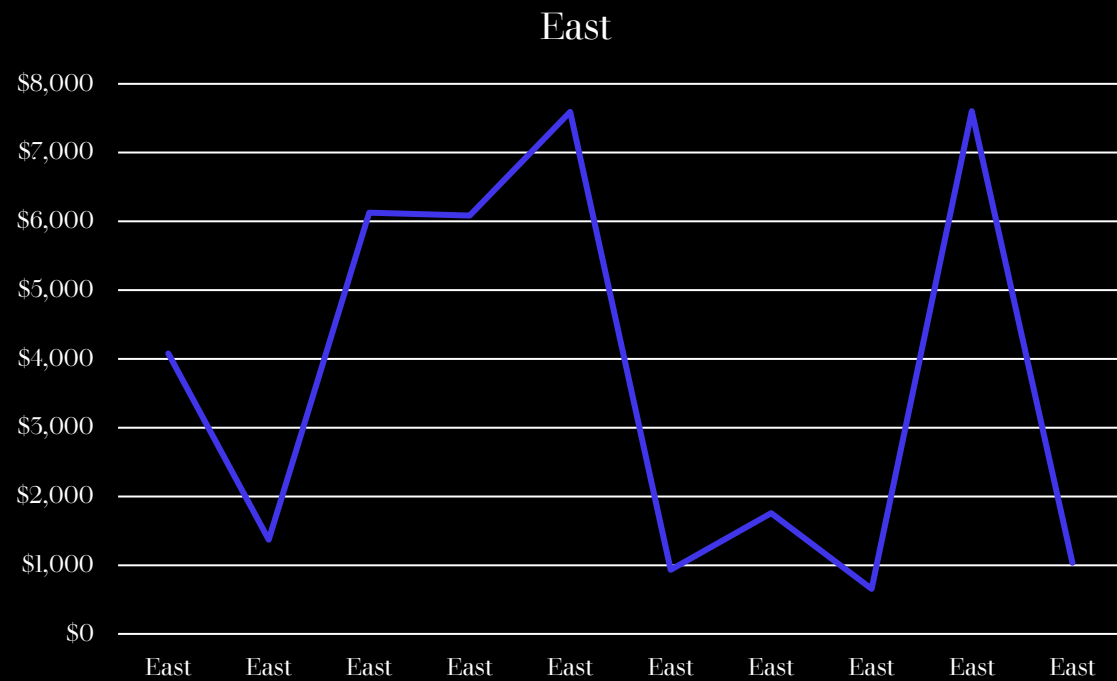

Overview

- Healthcare cost has been a significant issue within our State, we will show you how Healthcare cost has been affecting imbalances in our Budget
-

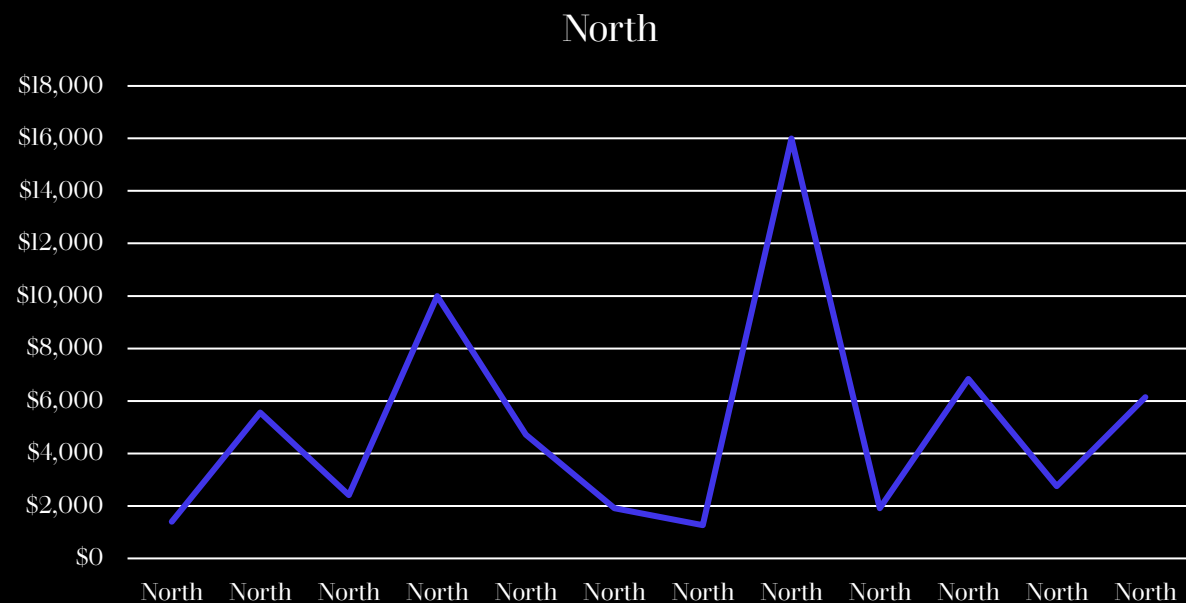

As you can see spending is stable in the Central Region.

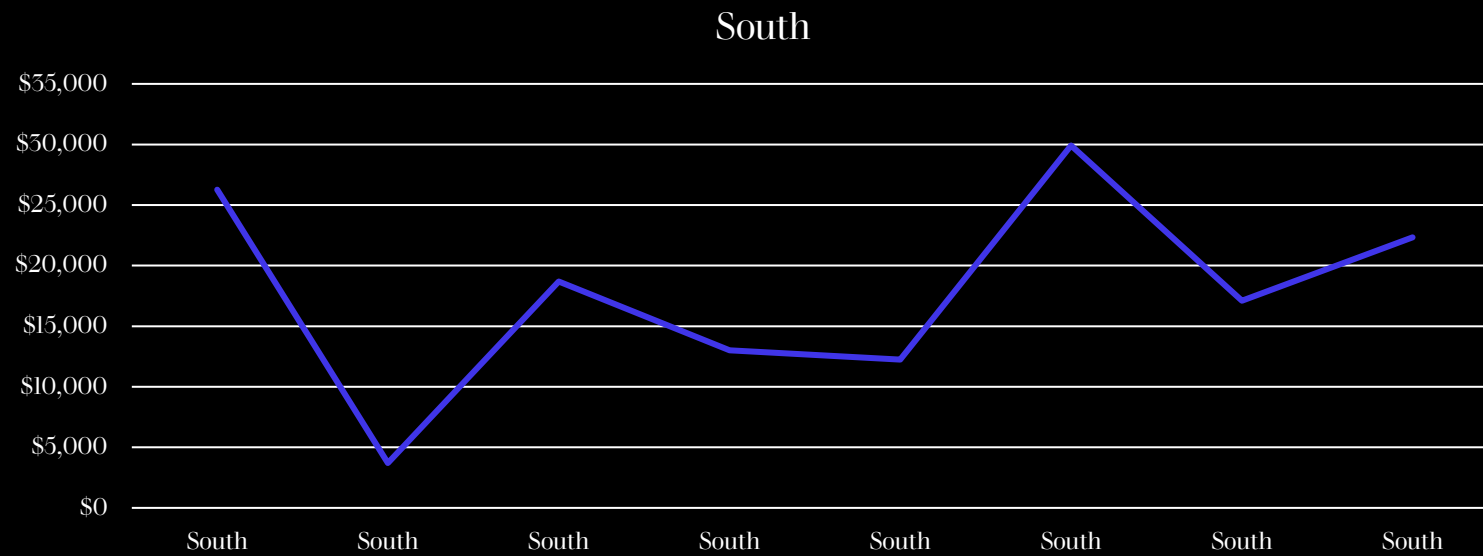

This graph shows needed improvements in this region.

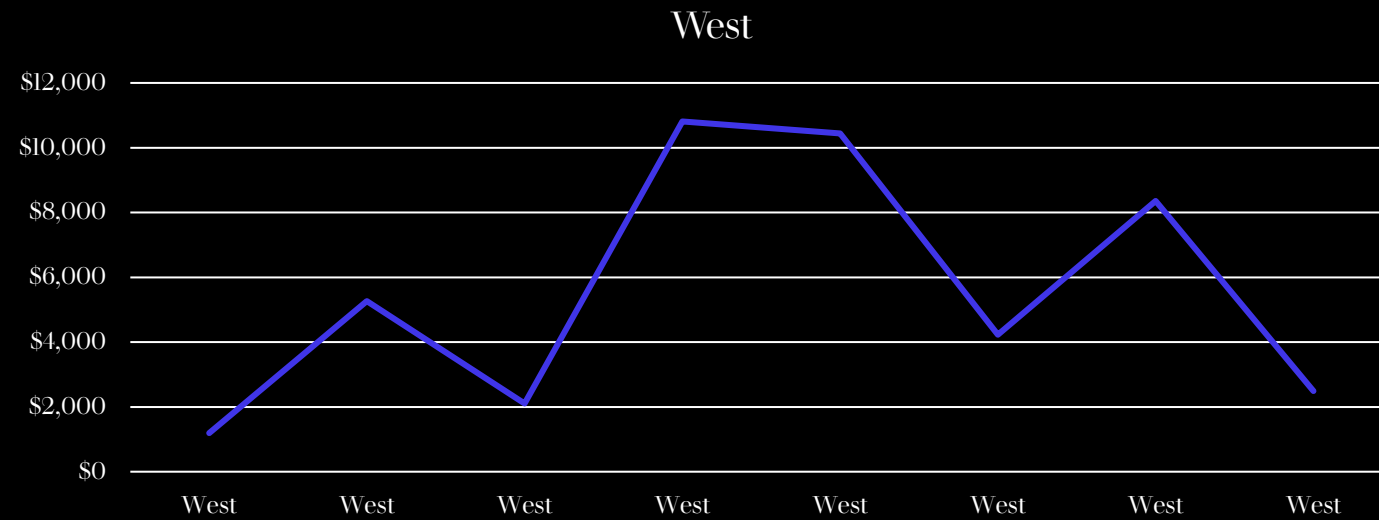

In this region data is stable, we can use this region as a benchmark.

The southern region is stable but, could use more work.

The western region has been affected the most by infant mortality.

Conclusion

- In conclusion, we see how the government budget has been affected by the rise in healthcare cost. With this information we can make the necessary adjustments so that spending can be allocated to other areas that are need for more resources.
